

LIGHTTOUCH™

The Cure All

* Microstep UV curing systems

The LIGHTTouch™ *Microstep UV Curing System PLC controllers offer converters the ultimate in flexibility allowing operators to easily program UV output proportional to press speed in 27 incremental stages through a color touch screen operator interface.

- Operator programmable shutter timing & bulb timer resets.
- Operator programmable UV output at 27 intensity levels resulting in optimum cure at every speed with cooler running web temperatures.
- On-screen automatic troubleshooting and fault-protection minimizes downtime & waste.
- Available in 400 & 600 WPI; adjustable in 12 watt per inch increments.
- "Cool UV" lamp assemblies incorporate cold and hot mirror dichroic technology along with closed-loop variable speed air flow controls.
